

Neptunes Swimming School

Swimming classes for children of all ages

The swimming courses will be split as follows:

Group D Starfish This is a swimming course aimed at children who cannot swim unaided and still use swimming aids like arm-bands etc.

Group C Seahorses This is an elementary swimming course aimed at children who have just learnt how to swim unaided (without arm-bands) and now need to be introduced to swimming the basic strokes and gain more confidence in the water.

Group B Dolphins This is a swimming foundation course aimed at children who have previously attended a swim school, can already swim confidently the length of the 33 meter pool without any help or swimming-aids, and have a basic knowledge of free-style, and breaststroke and back-stroke, but need to be taught and improve the proper breathing techniques.

Group A Sharks This course is intended for children *who have previously attended a swimming school at intermediate level* and need to continue to improve their swimming strokes. Special emphasis during this course will be aimed at introducing swimmers to more advanced swimming and racing techniques.

Group AA Barracudas This group is for Advanced Swimmers who train throughout the year.

During the lessons of the first week of the Term, coaches will assess the swimmer's abilities required for the group that they have registered in. If the coaches feel that a swimmer is in the wrong group level, in the interest of the swimmer him/herself, we will change his/her Group level as necessary in order to maximize his/her learning capabilities.

NEPTUNES WPSC Swimming School
